N	ASA review completed.
25X1A	NOTE FOR:
	H. R. 4473. DD/S&T, as well as other Agency components, may have some concern about the provisions of paragraph (4) and paragraph (5) appearing on page 3, lines 4 and 8. These could make an additional group within NASA privy to NASA-Agency-DOD relationships, and indirectly to relationships which pertain to foreign governments.
	H. R. 4450. I should think Carl would be interested in quickly scanning page 2 to get an idea of the distribution of the vast sums of NASA money. Human factors at \$21,000,000 should be of particular interest, as well as the item called "Sustaining University Program" at \$20,000,000.
